Triangle Flash Cards: Group A

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

Triangle Flash Cards: Group B

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

Triangle Flash Cards: Group C

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

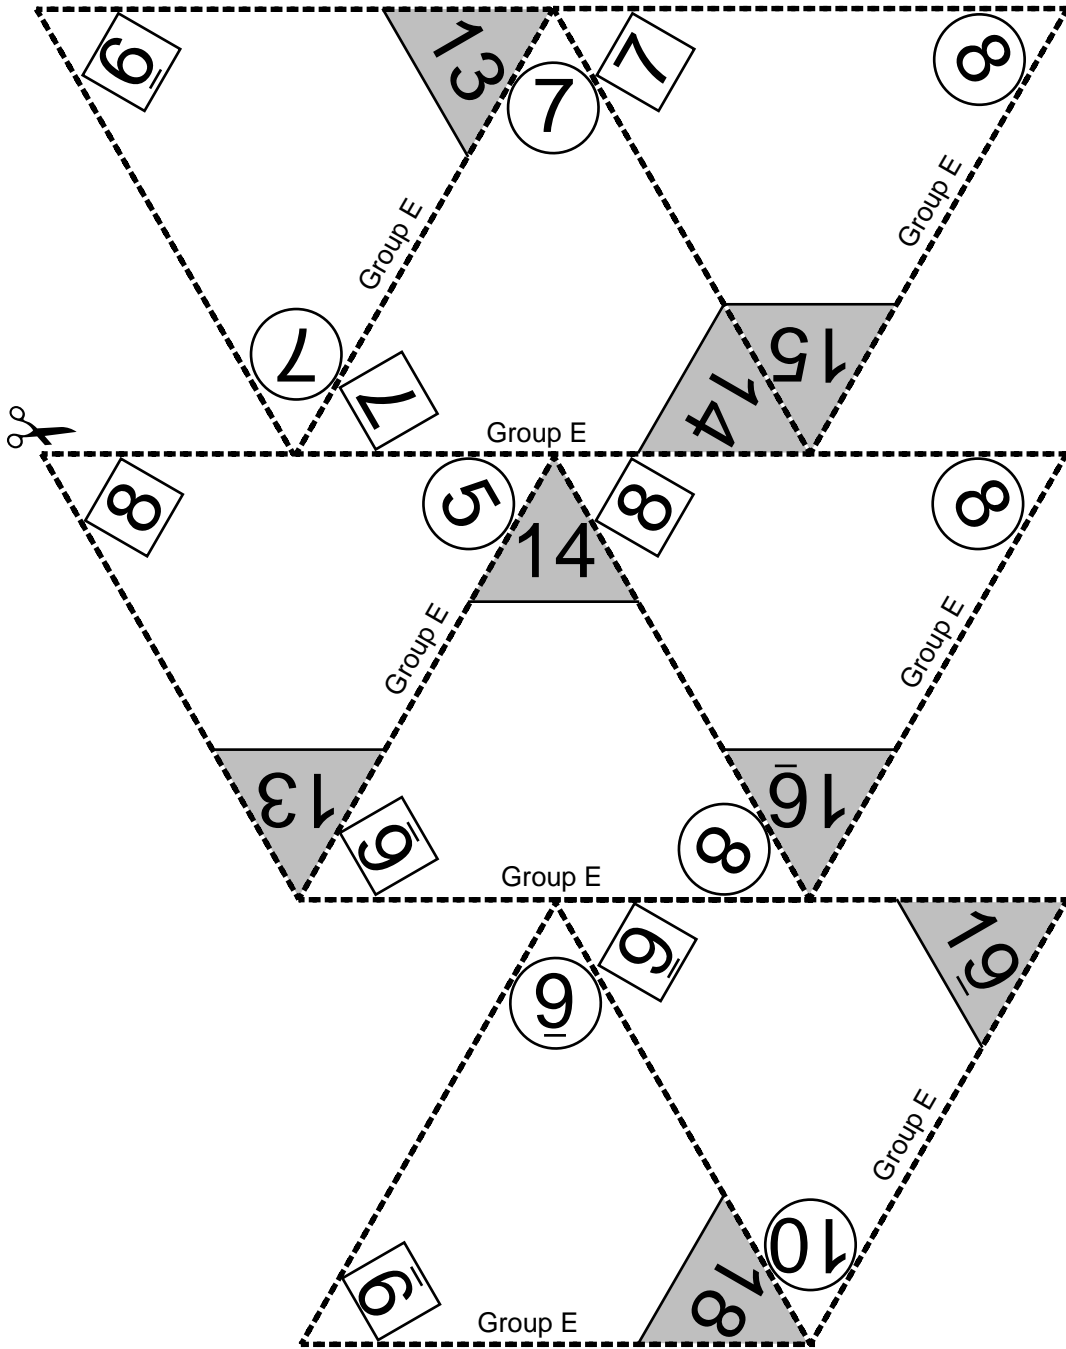

Triangle Flash Cards: Group D

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

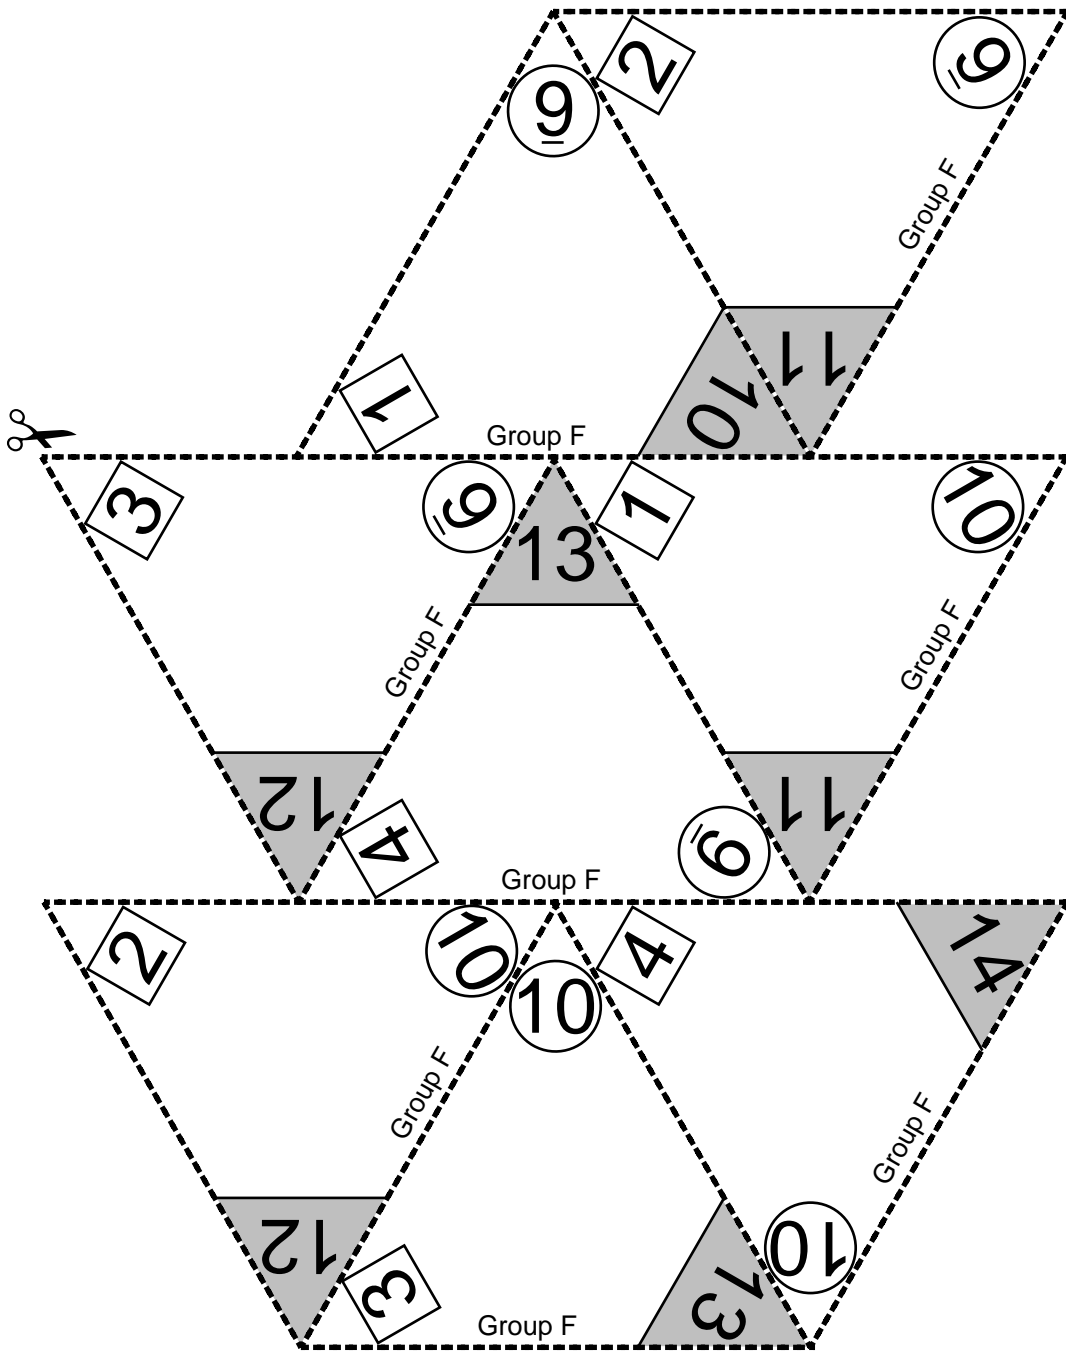

Triangle Flash Cards: Group E

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

Triangle Flash Cards: Group F

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.

Triangle Flash Cards: Group G

1. Cut out the flash cards.
2. Work with a partner. To practice an addition fact, cover the corner with the highest number. (It is shaded.) Add the two uncovered numbers.
3. Divide the cards into three piles: those facts you know and can answer quickly, those that you can figure out, and those that you need to learn.
4. Practice the last two piles again. Then, make a list of the facts you need to practice.
5. To practice a subtraction fact, cover the corner with the square. Subtract the uncovered numbers. Then go through the cards again, this time covering the number in the circle.
6. Repeat the directions in 3 and 4 above each time you go through the cards.
